

Practise halving a two-digit number
Use base ten to make a number and then half
it by sharing in two groups

Number	Draw it	Half it		How many in each group?
		Group 1	Group 2	
40				20
50				25
70				35
80				40
90				45
62				31
84				42
56				28
72				36
